

UPLOAD A MODEL

Thingiverse [Amusing Group](#)

Note: to upload a model, you can either 'POST IT' to the group choosing an already uploaded model from your 'MY DESIGN' section in your account or directly upload it to the forum when creating a new topic or commenting (No image preview in that case, see cube 20x20x20mm exemple attached to this post).

1. Log into or create your Thingiverse account.
2. Select Upload a Thing! from the Create menu at the top of the site.
3. Drag in or select your STL and image files.
4. Fill out title, description, and other information to complete your Thing.
5. Now you can POST A THING from your designs and post comments or create new topics in the forum.
